To The Elders as addressed.

When Bill Quinert (DPG Day 14 Italy) was interviewed by the MAC during his recent furlough in Australia, while discussing a number of matters we asked him if there was anything we could do for him.

We had noticed that Bill's hearing was not what it should be and discussed with him a number of options that may have been available. Much of Bill's work is a conversational ministry.

Bill has recently written to us to tell us that the provider of his current aids has offered a month's free trial of a newer more technical model. As these start at a cost of Euro 5000 (approx AU\$7000) Bill is reluctant to take up this offer unless there is some possibility of purchase.

While considering the best way the MAC could help, we have been advised that AMT has opened a special fund for Bill's need.

Any Assembly or individual who would like to help improve Bill's hearing and thus his ministry are encouraged to send any amount to AMT mentioning it is for Bill's hearing aids.

Yours in our Lord Jesus Christ,

Elaine Meers
